PROJECTS

E-commerce - MERN

Jan 2025

A Full Stack E-commerce website for tourists

Built a scalable e-commerce app with **20+ RESTful APIs**, Stripe integration for secure payments, JWT-based authentication, and a responsive **React UI** with advanced search and filters.

Secured user sessions using JWT tokens and implemented password reset and **email verification** workflows and with a rest password functionality.

Portfolio - React

Dec 2024

An interactive and resposive portfolio for web developer

Built a dynamic portfolio website using **React** to showcase projects, skills. Implemented smooth navigation, **interactive UI** components, and **custom animations** for an engaging user experience. Integrated responsive design and **optimized performance** for fast loading. Deployed the project using **GitHub Pages**.

Landing Page - Sass

Jun 2024

A fully responsive and appealing page made with sass

Designed a visually appealing, fully **responsive** tour booking landing page with modern animations, **flexbox**, grid layouts, and **custom Sass mixins** for scalable and maintainable styles.

EDUCATION

Bachelor of Science

Computer Science (hons.) - Delhi University
